President

The President of the Technical College of the Lowcountry has the ultimate responsibility and authority regarding all institutional advancement activities. The Vice President for Institutional Advancement & External Relations reports directly to the President and is responsible for coordinating and securing funding and grant efforts supporting the established priorities and objectives of the College. This Vice President identifies potential funding sources and applies for public and private sector funding supporting institutional and student development, faculty and staff development programs, and institutional equipment acquisitions.

Grant submissions and any fundraising activity must be approved by the President of the College.
