Commission Chair

President

It shall be the policy of the State Board for Technical and Comprehensive Education that each college accept for transfer all applicable and appropriate credits and/or credentials of the other technical colleges. Every effort should be made to recognize the previous educational experiences of the student while applying appropriate quality assurances for graduation purposes.

The Technical College of the Lowcountry will accept transfer credits from an institution accredited as degree granting by a Department of Education recognized accrediting agency. Acceptance of credits will be at the discretion of the Registrar's Office in consultation with the appropriate Division Dean and approved by the Vice President for Academic Affairs. All coursework accepted in transfer will represent collegiate level work with student competencies equivalent to those of students enrolled in the College's own courses and programs.
